

I'm not robot!

Hi All Just brought a sound bud slim and it paired well out of the box. I thought of charging it for a while so I used the cable that came along with the box and charged it on laptop. After detaching, the soundbuds are not entering pairing mode. holding onto the power button for more than 10sec is giving me solid blue light and no entering the flashing blue light mode as suggested in the manual. Tried holding the two volume keys, no go... I have tried unpairing it from my mobile but now I can't pair it again. Please help 1 Like Email support@anker.com if they don't follow what the manual says they should do. @jaykishan_nair Not sure of the exact reset procedure on these headphones but try holding down the power and volume up or volume down for about 5 seconds. I would also try another cable and a more powerful wall charger. It is possible that the headphones just have a low battery. @AnkerOfficial @AnkerSupport @AnkerTechnical Sorry to hear that. It seems that you have already reached out to our customer service. Please check your email inbox for their reply. 1 Like I have a similar problem. The soundbuds entered pairing mode automatically for the first use and I could pair my phone with no problem. I now would like to pair them with my laptop as well and there is no way I can get them into pairing mode. What should I do? The Slim when you turn on you hear a sound in the ear, if its solid light then its connected, if flashing it is in pairing mode. Two methods to get to pairing mode. Turn off the Bluetooth, or be distant from, the last connected device, the Slim will then entering pairing mode automatically when turned on. Turn on the Slim and press and hold vol up and down for a few seconds. Home Categories FAQ/Guidelines Terms of Service Privacy Policy CAUTION: Electrical Device. Read the safety instructions! Step 1 Ensure that the Anker SoundBuds headphone is turned on and the battery fully charged. Do not separate the two devices for more than 3 feet while pairing. Step 2 The headphone is automatically set to the pairing mode and the blue LED flashes rapidly. The headphone is now ready for pairing and can be connected with other Bluetooth enabled devices. Step 3 Turn on the Bluetooth mode on your mobile device. It will automatically search for other Bluetooth enabled devices nearby. Choose the "Anker SoundBuds Sport" device from the list. Has the pairing been successful, the headphone's LED will stay solid blue. - In case your mobile device requests a password, please try the combination "0000" or "8888". Step 4 The headphone will always try to connect to the last used device (mobile phone, tablet, computer) once powered up. In case a connection cannot be established, the headphone switches back to the pairing mode. If you want to connect the Anker SoundBuds headphone with another device, simply turn off the Bluetooth function on the first device (for instance "disconnect") OR press both volume keys () for 3 seconds on the headphone. The Anker SoundBuds Sport will switch back to the pairing mode in order to connect to another device. Follow again the above steps 1 to 3. Additional Information The following functions can be controlled via the three different buttons. Function Button How To / Control Power On Press and hold the power button for approx 1 second Power Off Press and hold the power button for approx 3 seconds Play / Pause Press the power button once Volume Up / Down Press the volume up () button Title Next Press and hold the power button for approx 2 seconds Pick Up Call Press the power button once End Call Press the power button once Reject Call Press and hold the power button for approx 1 second Hold Current Call and Pick Up New Call Press the power button once Activate Voice Control Press and hold the multi function button for approx 2 seconds The blue and red LEDs on the headphone control unit have different meanings. LED Status Headphone Status LED off The battery is fully charged. Total battery runtime is approx 8 hours. LED flashes red The battery is almost empty and must be charged. LED solid red The battery is getting charged. A full battery charging cycle is about 1.5 hours. LED flashes blue The headphone is set to the Bluetooth pairing mode. LED flashes blue The headphone is powered on OR incoming call.
